

## Circular to Money Service Operators Anti-Money Laundering / Counter-Terrorist Financing Statements issued by the Financial Action Task Force

### (1) FATF Statement on High-Risk Jurisdictions subject to a Call for Action

Further to our circular issued on 6 July 2022 Note 1, this is to inform you that the Financial Action Task Force ("FATF") issued a statement on High-Risk Jurisdictions subject to a Call for Action on 21 October 2022 , which can be found at <a href="https://www.fatf-gafi.org/publications/high-risk-and-other-monitored-jurisdictions/documents/call-for-action-october-2022.html">https://www.fatf-gafi.org/publications/high-risk-and-other-monitored-jurisdictions/documents/call-for-action-october-2022.html</a>. For all countries identified as high-risk, the FATF calls on all members and urges all jurisdictions to apply enhanced due diligence, and, in the most serious cases, apply countermeasures to protect the international financial system from the money laundering, terrorist financing, and proliferation financing risks emanating from those countries.

### (i) Jurisdictions subject to a FATF's call for applying countermeasures

The statement advised its members to refer to the list of high-risk jurisdictions subject to a call for countermeasures adopted in February 2020, namely Iran and the Democratic People's Republic of Korea Note 2.

In response to the COVID-19 pandemic, the FATF has decided to pause the review process for this list from February 2020. While the aforesaid statement in February 2020 may not necessarily reflect the most recent status in Iran and the Democratic People's Republic of Korea's anti-money laundering and counter-financing of terrorism ("AML/CFT") regime, the FATF's call to apply countermeasures Note 3 on these high risk jurisdictions remain in effect.

# (ii) <u>Jurisdiction subject to a FATF's call for applying enhanced due diligence measures proportionate to the risks arising from the jurisdiction</u>

Given the continued lack of progress and the majority of the action items in relation to Myanmar's strategic deficiencies still not addressed after a year beyond the action plan's deadline, the FATF decided that further action was necessary and called on its members and other jurisdictions to apply enhanced due diligence measures proportionate to the risk arising from Myanmar.

### (2) FATF Statement on Jurisdictions under Increased Monitoring

In addition, the FATF has issued an updated statement on Jurisdictions under Increased Monitoring which can be found at (<a href="https://www.fatf-gafi.org/publications/high-risk-and-other-monitored-jurisdictions/documents/increased-monitoring-october-2022.html">https://www.fatf-gafi.org/publications/high-risk-and-other-monitored-jurisdictions/documents/increased-monitoring-october-2022.html</a>) Noney service operators ("MSOs") are reminded that three new jurisdiction were added into the list, namely Democratic Republic of the Congo, Mozambique and Tanzania, while two jurisdiction, namely Nicaragua and Pakistan, was removed from the list.

The statement sets out the list of jurisdictions that have committed to resolve swiftly strategic deficiencies in their regime to counter money laundering, terrorist financing, and proliferation financing within agreed timeframes and are subject to increased monitoring. The FATF will closely monitor the progress made by these jurisdictions in addressing the identified strategic deficiencies and encourages its members to take into account the information presented in the statement in their risk analysis. MSOs are reminded to browse the website of the FATF for the latest information, including any updated statements issued by the FATF from time to time.

#### (3) Outcomes from the FATF Plenary from 20 to 21 October 2022

In addition to the statements in (1) and (2) above, the FATF also published various outcomes of its recent Plenary which may be of interest to MSOs. They include:

- (a) the release of a Guidance on Beneficial Ownership for public consultation which provides guidance to countries and the private sectors in implementing the new requirements to prevent the misuse of corporate structures, or legal persons, for money laundering or terrorist financing and to ensure that there is adequate, accurate and up-to-date information on the beneficial ownership and control of legal persons. The FATF expects finalising the guidance in February 2023; and;
- (b) the release of proposed revisions to strengthen the FATF standard on beneficial ownership information for trusts and other legal arrangements for public consultation. The FATF expects finalising these revisions in February 2023.
