

Quebec Selected Skilled Workers

<https://www.canada.ca/en/immigration-refugees-citizenship/services/immigrate-canada/quebec-skilled-workers.html>

Located in the southeast of Canada, Quebec is Canada's largest province in area, with Quebec City as its capital and Montreal as its largest city. More than 80% of Quebec's population is of French descent and the official language is French.

Quebec's welfare system is the most superior in Canada, there are many preferential policies for new immigrants, all Quebec residents, regardless of their economic status, can participate in public hospitalization insurance and medical insurance, thus enjoying free medical care and free hospitalization.

Because the Canadian government does not have a strict household registration management system, and follows the principle of free population flow, even if you choose Quebec immigrants, immigrants can settle anywhere in Canada after success; Quebec Skilled Immigration is another option for applicants who rely on their personal ability to immigrate to Canada.

The independence of language and the particularity of geographical location determine the high degree of autonomy of Quebec, therefore, the application conditions of Quebec skilled immigrants are completely determined by the Quebec government according to the actual situation and development needs of the local, not subject to the federal government, of course, the final approval of the federal government, Quebec only has the right to select. Called CSQ Certificat de selection du Quebec (CSQ - Quebec selection certificate) - Quebec Immigration Selection.

Quebec's skilled immigrant program is divided into the following categories:

- 1、魁北克常规技术移民 Regular selection program for skilled workers
- 2、魁北克经验类移民 Québec experience program - PEQ
- 3、PEQ 留学生类别 PEQ – Québec graduate
- 4、PEQ 临时外国技术工类别 PEQ – Skilled temporary foreign worker
